

MARTHA STEWART, M.D.

GENERAL, SURGICAL AND COSMETIC DERMATOLOGIST

Offering A Lot More Than Just A Famous Name

Dr. Martha Stewart and Assistant Gwen Penny

When you meet Dr. Stewart for the first time, you are immediately put at ease by her warm smile and attentive demeanor. Her sense of humor is also something that her patients appreciate and she's lucky to have it, with a name like Martha Stewart. Even though she's heard a thousand "Martha Stewart" jokes by now, she will tell you that many of her patients still get a good laugh out of coming to the office and asking her for recipes or when she got out of prison. "I think sometimes a little humor is good, even if it is at my own expense," she says jokingly. "Going to the doctor can be an anxiety-provoking experience for many people, so from the moment a patient walks through our front door to the moment they leave, we want them to be comfortable and have had a pleasant experience."

It's evident after speaking with Dr. Stewart just for a few minutes that she truly enjoys what she does, as do her employees. "I get compliments daily from patients on how nice

my staff is and I honestly couldn't function without them" she says. Jolie Maggio, Dr. Stewart's office manager, states, "Our patients always come first. We have a great team of caring staff members here and we do our best to make sure we exceed our patients' expectations."

When a patient comes to see Dr. Stewart, they usually come with a specific concern. Maybe it's acne late in life, a suspicious mole, fungal infection, warts or unwanted facial hair. Many patients come in to consult with Dr. Stewart about the various procedures she offers to refresh, rejuvenate and revitalize skin that will help them look younger and feel more vibrant.

Whatever the problem, Dr. Stewart's extensive education and training enables her to diagnose and treat the condition and her compassionate approach helps her patients feel at ease. In her continuing effort to stay on top of the very latest in skin care technology, Dr. Stewart has introduced three state-of-the-art procedures in her office, and is proud to be the first facility in Louisiana to offer Isolaz, a new treatment for acne that was recently cleared by the FDA.

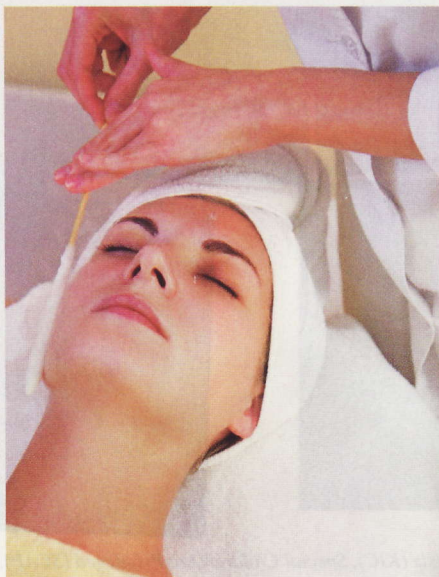

THE ISOLAZ® DIFFERENCE

Imagine waking up with clear, radiant skin—free of blemishes.

Isolaz which was rated One of the Three Hottest New Products at the 2007 American Dermatology Conference is powered by a breakthrough technology called Photopneumatics™ which is the only therapy in the world that combines a vacuum (to deep cleanse and purify your pores) and painless light therapy (that helps destroy the acne causing bacteria) to eliminate even the most stubborn acne.

FRACTIONAL NON-ABLATIVE SKIN RESURFACING

Through this cutting-edge laser technology Dr. Stewart is able to offer her patients fresher, more youthful looking skin. The infrared laser

penetrates well below the epidermis and into the actual dermis of your skin with an array of microbeams sparing any damage to surrounding tissue. This initiates a natural healing process and accelerates the formation of new, healthy tissue resulting in improved skin color, texture, tone and lessening of fine lines and wrinkles.

THE PROTECT FACIAL STUDIO

With the Protect Facial Studio, skin defects such as fine lines and wrinkles, acne scars, and spider veins can be seen more clearly than ever before. Dr. Stewart and her staff are able to show patients their amazing before and after photos. With the Ultraviolet Digital Analysis System, they are also able to show patients the real impact of sun damage. This amazing educational service is provided complimentary with each consultation.

A LEADER IN HER FIELD

Dr. Stewart earned her medical degree from Tulane University School of Medicine and completed her dermatology residency at LSU Medical Center in New Orleans where she was awarded the Louisiana Dermatological Society's Peterkin Award for the outstanding resident research project. She is a published author, lecturer and has provided free informational seminars to the public on a variety of topics including skin cancer awareness and the latest in cosmetic procedures.

Dr. Stewart is a member of the American Society for Dermatologic Surgery, American Society of Cosmetic Dermatology and Aesthetic Surgery, Louisiana Dermatological Society, American Medical Association and is a Fellow of the American Academy of Dermatology, and an Assistant Clinical Professor of Dermatology at LSU.

Licensed Aesthetician Tosha LaFont

GROWING HER PRACTICE

With the overwhelming success of her practice since she opened her Mandeville office in 2004, Dr. Stewart is planning on expanding her office space and has already added one new member to her staff to meet the demands of her patients. "We are very excited to have Tosha join us." Tosha LaFont is an aesthetician and makeup artist with over 11 years experience in the beauty and spa industry. She specializes in customized facials, pressure point massage, brow design, waxing services and makeup artistry. Her approach to skin care focuses on the individual needs of each client. She combines holistic skincare practices with more progressive skincare treatments to assist in harmonizing the skin's imbalances and with each treatment she adds a special, personal touch.
